

MUHAMMAD UMAR

FRONTEND DEVELOPER

muhammadumer030977@gmail.com | +923288388838 | [LinkedIn](#) | [Github](#)

PROFESSIONAL OBJECTIVE

Frontend Developer with over 2 years of professional experience in building scalable, high-performance web applications. Specialized in React.js and modern JavaScript, with additional experience in TypeScript and Next.js. Adept at frontend development with hands-on experience in REST API integration and state management solutions. Proven ability to deliver clean, efficient code using modern architectures, reusable components, and best development practices. Strong problem-solving mindset with a focus on performance optimization, responsiveness, and seamless user experience. Skilled in cross-functional team collaboration, Agile methodologies, and stakeholder communication to ensure on-time, quality-driven delivery.

TECHNICAL SKILLS

Languages : JavaScript , TypeScript , C++ , HTML/CSS, Bootstrap, Tailwind CSS

Frontend : Flutter , ReactNative , REST APIs , GraphQL , React.js , Next.js , Asynchronous JavaScript, Webpack, NPM

State Management : Redux Toolkit , Redux , Zustand

Platform : AWS , Postman, Vercel, Netlify

Version Control : Git , GitHub

THE VISAMTION (Private) Limited – Present

Frontend Developer – (React.js, Next.js, Tailwind CSS, Bootstrap)

- Designed and implemented visually engaging UI/UX interfaces using React.js and Tailwind CSS with a strong focus on responsiveness and accessibility.
- Integrated third-party APIs to fetch dynamic content and enhance user interactions across multiple devices.
- Utilized Framer Motion and modern animation techniques to enhance user engagement and create smooth page transitions.
- Collaborated with designers to translate Figma prototypes into functional, pixel-perfect components.
- Conducted cross-browser testing and optimized layouts for desktop and mobile experiences.
- Contributed to code reviews and implemented best coding practices to maintain a clean, maintainable codebase.

Rex Technology (Mar 2023 – Oct 2024)

Frontend Developer – (React.js, Next.js, Tailwind CSS, Bootstrap)

- Developed and optimized responsive web interfaces using React and Tailwind, improving page performance and user engagement across desktop and mobile devices.
- Collaborated closely with backend developers to integrate frontend components seamlessly with server-side logic.
- Actively participated in Agile development processes, including daily stand-ups, sprint planning, and retrospectives.
- Stayed updated with the latest industry trends, emerging technologies, and best practices in frontend development.
- Developed a responsive and interactive real-time chat application using React.js and Firebase, showcasing expertise in frontend development and cloud-based backend integration.

Vention (Aug 2022 – Feb 2023)

Frontend Developer – (React.js, Next.js, Tailwind CSS, Bootstrap)

- Developed and maintained scalable, high-performance web applications using React.js, Next.js, Tailwind CSS, and Bootstrap.
- Built responsive and accessible user interfaces, ensuring seamless experiences across desktop, tablet, and mobile devices.
- Converted Figma and design mockups into reusable, pixel-perfect frontend components with a strong focus on UI consistency.
- Integrated and consumed RESTful APIs to display dynamic data and enhance application functionality.
- Implemented state management solutions using Redux Toolkit, Redux, and Context API to efficiently manage application state.
- Improved application performance through code splitting, lazy loading, component optimization, and rendering best practices.

EDUCATION

University of South Asia

BS Information Technology

SKECHERS : <https://www.skechers.com/>

Role: **Frontend Developer (React.js)**

- Developed and maintained responsive and user-friendly frontend interfaces for an e-commerce platform.
- Built reusable UI components and implemented modern UI/UX practices to enhance customer experience.
- Collaborated with designers and backend developers to translate requirements into pixel-perfect interfaces.
- Integrated APIs for dynamic product listings, user interactions, and content management.

Gems Orbit : <https://gemorbit.com/>

Role: **Frontend Developer (React.js)**

- Designed and developed the complete UI/UX from scratch.
- Built responsive and pixel-perfect interfaces using modern frontend technologies.
- Integrated backend APIs within the Laravel application to manage dynamic content.
- Worked closely with designers and backend developers to deliver a seamless user experience.

Flight Itinerary For Visa : <https://flightitineraryforvisa.com/>

Role: **Frontend Developer (Laravel + API Integration)**

- Developed and implemented the complete frontend interface from scratch.
- Integrated APIs for flight data and dynamic booking information.
- Created responsive and user-friendly pages optimized for all devices.
- Improved UI/UX and ensured smooth user interactions.

Dummy Ticket For Visa : <https://dummyticketforvisa.com/>

Role: **Frontend Developer (Laravel + API Integration)**

- Built and maintained responsive frontend components.
- Integrated APIs to manage dynamic ticket and booking information.
- Developed reusable UI components and optimized application performance.
- Ensured a seamless and consistent user experience across devices.

Youth Academy : <https://www.youthacademy.pk/>

Role: **Frontend Developer**

- Developed responsive and interactive user interfaces from scratch.
- Implemented modern UI/UX principles to enhance user engagement.
- Integrated APIs for dynamic content management.
- Optimized performance and ensured cross-browser compatibility.

NayaFood ERP : https://nayafoodspakistan.com/login/user_

Role: **Frontend Developer (React.js + API Integration)**

- Developed and maintained a complete ERP system using React.js.
- Built responsive and reusable UI components from scratch.
- Integrated REST APIs for modules such as authentication, inventory, and order management.
- Implemented state management and optimized application performance.

LeyJao ERP : <https://leyjao-project.vercel.app/>

Role: **Frontend Developer (React.js + API Integration)**

- Developed an ERP platform with a focus on scalable and responsive frontend architecture.
- Designed and implemented user-friendly interfaces from scratch.
- Integrated REST APIs and managed dynamic data rendering across multiple modules.
- Optimized application performance and improved user experience.
